

INAPI[®]

INCREASE YOUR INSTRUMENTATION PRODUCTIVITY

FEATURES AND BENEFITS

- Enables users to view all instrumentation and P&ID data and deliverables.
- Connects 3rd party software such as SAP, Maximo and AIM to instrumentation and P&ID data and deliverables.
- Improves collaboration and internal communication.
- Makes connectivity fast and easy between applications, asset management systems, SPI instrumentation data and external documents.

INAPI[®] A WiseTools Productivity Tool

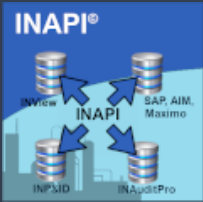

What is INAPI[®]?

INAPI is WiseTools' API feature. It enables automatic viewing of data and deliverables between INView, INP&ID and INAuditPro applications and it connects 3rd party software such as SAP, Maximo and AIM to INView and INP&ID. The result is the ability to view all your instrumentation and P&ID data and deliverables using a single interface.

Features and Benefits

- Improves collaboration and internal communication within the plant because INAPI's core functionality is integration, making connectivity fast and easy between applications: INView, INP&ID and INAuditPro, asset management systems, SPI instrumentation data and external document systems.
- Saves time by enabling the user to view SPI instrument tag data from unrelated applications. No need to go between two or three different systems to get information.
- **INAPI Integrations:**
 - ✓ **Asset Management Systems** such as Maximo, AIM, SAP, etc. can be embedded with URL calls to enable the user to immediately view:
 - SPI instrument data such as datasheets; instrument properties, process data, loop, panel strip and line properties; panel strip and loop drawings; instrument and panel photos; external documents, and P&ID drawings.
 - ✓ **INView** uses INAPI calls to display P&ID drawings (CAD or SPPID)
 - ✓ **INAuditPro** uses INAPI calls to display SPI instrument datasheets.
 - ✓ **INP&ID** uses INAPI to display SPI datasheets, instrument and loop properties, SPI loop and panel strip drawings and SPI associated documents.
- INAPI is a web application that uses Microsoft Edge or Google Chrome.
- Designed to work on a desktop or a tablet.
- User friendly – intuitive and easy to use.
- No passwords required.
- Easy to implement and configure.
- Used by data-centric software to view deliverables

Call 403 233 8015 or Email Info@WiseTools.ca for a demo and quote.

INAPI[®]

INCREASE YOUR INSTRUMENTATION PRODUCTIVITY

INAPI[®] A WiseTools Productivity Tool

SYSTEM REQUIREMENTS

CLIENT:

- Microsoft Edge or Google Chrome
- Windows v10x+

MORE WISETOOLS PRODUCTIVITY TOOLS

- INAuditPro
- INTurnover
- INView
- INP&ID
- INDigital
- INSync Admin / Review
- INView Anywhere / INField Check, INLoop Check, INWalkdown - Instruments
- INFront
